iJetColor 1175C

Introducing the Most Affordable Inkjet Console Based Envelope Printer

We're excited to introduce our newest member of the iJetColor family, the iJetColor 1175C. An industrial console-based system just like our 1175 Pro, yet affordable like the 1175 benchtop. The 1175C has fast variable speeds like the Pro. It's compact like our benchtop unit with integrated feeding and alignment to cover every envelope size. We've incorporated the best of our existing units so we can now offer:

"Three Great Inkjet Solutions - One Perfect Fit!"

The new affordable iJetColor 1175C incorporates the very best of the Pro model and an easy to use feeding and alignment system that produces rich and vibrant four color envelopes. All of this can be backed with a comprehensive 5-year service program guaranteed by a dedicated, focused, manufacturing team from Printware with a more affordable price.

Designed for a single operator, the high-speed, easy to use, and rugged iJetColor 1175C incorporates proven HP's PageWide full color thermal inkjet technology. The HP FI-1000 printhead generates full-color images using pigment-based durable inks that are fade-, scratch-, and water-resistant. It is proven to deliver the industry's lowest variable cost with long life print heads that produces consistent color everyday for every envelope!

iJetColor 1175C

Printware — MADE IN USA

Features:
- Proven HP Thermal Inkjet Technology.
- Ultra Reliable Envelope Feeding System
- Pigment Based HP Ink = Water Safe
- Productive Single Operator yields 10,000+ envelopes/hr
- Low Variable Cost of Ownership
- MFG Direct Support - iJetAdvantage[sm]
- Full-bleed Printing and PMS Color Matching Technology

Industrial Long-Life Printhead

Each HP FI-1000 printhead typically yields up to 1M+ images based on coverage of work. Each print head delivers pigmented inks that are water, smudge, and light-safe for lasting, quality output.

Consistent High-Quality Color – Everyday and Every Envelope!
