iJetColor *1175*

The iJetColor 1175 is an innovative compact envelope press that incorporates HP's PageWide full color thermal inkjet technology into the industry's most elegant envelope feeding system designed by Printware. The HP FI-1000 printhead generates full color images using pigment-based durable ink that is fade-, scratch-, and water-resistant. Coupled with proven economics that deliver the industry's lowest variable cost inkjet for unmatched profitability. Printware's easy to use feeding system, designed from the ground up, to consistently and accurately feed envelopes for reliable short and long run trouble free operation. The iJetColor 1175 is a versatile and ideal solution for high-volume print and direct mailing operations that need to produce short-run, full-bleed variable data jobs fast, reliably, and profitably. The iJetColor 1175 system provides everything you need to print and personalize up to 7,810 #10 envelopes per hour.

Each iJetColor 1175 unit can be backed by an affordable, comprehensive 5-year service program guaranteed by a dedicated, focused manufacturing team from Printware.

Color Match Technology
Printware Exclusive

Printware

Freedom from overpriced envelopes starts with iJetColor. We optimized digital envelope printing when no one else would—and we continue to lead the way.

Features:

- HP Thermal Inkjet Technology with water-resistant, pigment-based ink
- Full-bleed printing with precise PMS color matching
- Exceptionally low cost per print for unbeatable ROI
- MFG Direct Support - iJetAdvantage
- Engineered for envelope printing—not retrofitted like the rest
